Dolapo Ezekiel **Ogunyemi**

Software Engineer | Application Support Analyst

Lagos, Nigeria | +234 803 732 3593 | ogunyemi.dolapo@gmail.com | ogunyemi.dolapo@yahoo.com | github.com/Dolapo-18 | linkedin.com/in/dolapo-ogunyemi-5a86b3108

Highly skilled and versatile with a strong track record in web development, business process automation using Microsoft 365, and network troubleshooting. Proficient in the MERN + NestJS stack for scalable application development and the Power Platform (SharePoint, PowerApps, Power Automate Web/Desktop) for workflow automation. With a passion for staying at the forefront of technology, I excel in collaborating across teams, optimising processes, and delivering solutions that drive measurable impact. Dedicated to contributing to the success of forward-thinking organisations through technical excellence and innovation.

CORE SKILLS

- **Front-end Development**: HTML, CSS, Bootstrap, JS, ReactJS, React Native, Redux, Tailwind CSS, Nativewind, Chakra UI, Zustand
- **Back-end Development**: Express.js, NestJS, Node.js, TypeScript, PHP, Ajax, JQuery, RESTful APIs, BullMQ
- **Business Process Automation**: SharePoint, PowerApps, Power Automate (Web & Desktop)
- **Collaboration Tools**: Microsoft Teams, Planner, Trello
- **Development Tools**: Git, VS Code, Sublime Text, Postman, Cursor, Ngrok, Redis, VPS.
- **Practices**: Agile/Scrum, CI/CD, Knowledge Sharing

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER (MERN + NESTJS) **Dec 2023 – Present**
Linkage Assurance Plc - Lagos, NG

- Collaborated with frontend developers and product managers to optimise MongoDB queries, reducing API response times by 30%.
- Architected a multi-product insurance platform serving diaspora customers, supporting Home, Auto, Holiday, and Travel insurance products through a unified policy management system.
- Designed and implemented a scalable NestJS backend using domain-driven modular architecture, improving maintainability and accelerating feature delivery.
- Engineered a guest-to-customer onboarding workflow that automatically provisions user accounts after successful payment, reducing purchase friction and improving conversion rates.
- Designed a Redis-based draft management system with TTL expiration, enabling multi-step form persistence and seamless user experience across sessions.
- Integrated Paystack multi-currency payment processing to support customers purchasing insurance products from multiple countries worldwide.
- Led the integration of third-party insurance provider APIs for travel insurance certificate issuance, enabling automated policy activation and certificate generation.
- Architected asynchronous background processing using BullMQ to decouple payment processing, policy generation, email notifications, and certificate creation.

- Partnered with UI/UX teams to design RESTful APIs in Express.js, improving app usability and reliability.
- Delivered enterprise-grade backend services in NestJS with modular architecture, enhancing maintainability.
- Worked with QA engineers to design automated testing, reducing post-release bugs by 20%.
- Translated Figma designs into responsive React.js UIs in collaboration with designers, improving customer satisfaction.
- Partnered with DevOps engineers to implement CI/CD pipelines, accelerating deployments and improving team release confidence.

APPLICATION SUPPORT ANALYST (MICROSOFT 365 POWER PLATFORM) **July 2018 – Present**

Linkage Assurance Plc - Lagos, NG

- Worked with business teams to design SharePoint sites, improving document retrieval efficiency by 40%.
- Collaborated with HR and Operations to implement approval workflows, reducing processing times from days to hours.
- Built low-code PowerApps applications with stakeholders, digitising manual forms and cutting paper-based processes by 35%.
- Automated cross-department workflows in Power Automate, saving 10+ staff hours weekly and ensuring SLA compliance.
- Designed Power Automate Desktop flows to integrate legacy systems, reducing manual errors by 50%.
- Coordinated with business units to identify automation opportunities, delivering measurable productivity gains.

APPLICATION SUPPORT ANALYST (NYSC PROGAM) **Oct 2017 - June 2018**

Linkage Assurance Plc - Lagos, NG

- Providing essential assistance to end-users, ensuring the smooth operation of critical software applications.
- Identifying, analyzing, and promptly resolving software-related issues to minimize disruption to business processes.

INTERN [SYSTEM SUPPORT] **July 2015 – Dec 2015**

Linkage Assurance Plc - Lagos, NG

- Assisted the IT team in resolving technical issues and inquiries from employees, ensuring minimal downtime and optimal system functionality.
- Conducted hardware and software troubleshooting, diagnosing problems, and provided timely solutions to maintain a smooth workflow.
- Collaborated with senior system administrators to perform routine system maintenance, updates, and backups, contributing to system stability and security.
- Documented standard operating procedures and created user guides to enhance the efficiency of future support activities and user self-help resources.

SALES REPRESENTATIVE **Nov 2013 - Jan 2014**

DStv Office, Ikeja GRA - Lagos, NG

- **Sales of GOtv Decoders**: Effectively promoted and sold GOtv decoder packages to customers, ensuring a thorough understanding of product features and benefits.
- **Customer Care**: Provided attentive and professional customer service, addressed inquiries, resolved issues, and ensured customer satisfaction.

EDUCATION
